ECOLORIA *Ecolgen zijn harde *Ecolgen werkers.
Sezoen werkers.

Omdat ze niet door het jaar heen werken* Is de tijd van een ecoloog erg waardevol. Het is van belang dat ze snel trends kunnen opsporen, vergelijken. En dan opslaan.

Sensoren

Vleermuizen zijn erg slimme, en daarom erg kieskeurige beesten. In winter houden ze van onze warme muren, die afkoelen tijdens de zomer... Maar soms moeten deze muren weg!

Waar gaan onze lieve vleermuizen dan heen?

Hier is (bedrijf) hard mee bezig. En ze zijn all erg ver. Door betere verblijven te maken, **VERHUIZEN** de vleermuizen zelf, naar deze superieure verblijven.

Toch ontsnapt van de laatvlieger, een moeilijk veeleisend dier, wat hun ideeale leef-omgeving inhoud. Ecologen van (bedrijf) zijn lang bezig geweest met informatie verzamelen.

En het staat allemaal in 1 tabel, een Microsoft Excel

Dat is ook het probleem!

All deze waardevolle gegevens staan in een enkel bestand. Zonder grafieken, of nauwkeurige sorteer middelen, waar een ecoloog via de telefoon bij kan. Dit valt tegen, en daarom maken wij een VPS!
